

Program Description:

This course is accredited under the Australian Qualification Framework (AQTF – code AUR40208).

This course enables light vehicle mechanics in the Automotive Industry to further enhance their skills. Learn to diagnose and repair motor vehicles – engines, gearbox, transmissions, suspension, electrical systems, brakes systems, cooling systems, Axles and differentials, Fuel, Fuel Injection system, Ignition and Starters, Vehicle Lighting systems, Exhaust systems and Steering systems

International Students can build a career in the Automotive industry. International candidates who worked in the Automotive field may apply for RPL. Successful completion of this course will enable you to apply for trade recognition as an Automotive Mechanic.

Delivery Method:

Delivery is a combination of classroom delivery, assignments and industry assessment. Competencies will be assessed by a theory test, practical skills and projects. Course is delivered onsite at our Brisbane Campus which includes: Classrooms, Mechanical Workshops.

Students are encouraged to seek workplace experience to gain the maximum benefit from the course. The greater the practice of skills during simulated work, the higher the skill levels the student will achieve and the more likely the student will not only meet but exceed the learning outcomes.

Students will be given practical hands on work in our InTech Mechanical Workshop situated in 44 Hope Street, South Brisbane.

Entry Requirements:

Completed year 10 or have a job in the trade. International students may enter the course with 5.0 IELTS score. English support classes are available.

(International Student – Student visa is required before we are able to enrol you in the course)

Students should package this course with Certificate 3 in Automotive for full benefit.

Program Resources:

Students will be supplied with protective clothing, steel cap shoes, stationery, and other items needed for the course.

Employment opportunities:

Career prospects include being able to apply for trade recognition as an Automotive Mechanic in Australia. Other areas of employment in automotive areas would also be available to you including vehicle repairs and servicing, tyre fitting etc.

Learning pathways:

On successful completion of this course, graduates may consider further study in the Diploma of Automotive (offered by InTech). Student may consider studying for a Mechanical Engineering Degree at university.

Students

There are specific requirements for international students. Please refer to the InTech website under international students for information regarding:

1. Conditions of enrolment
2. Refund Policy
3. Protection of prepaid fees
4. Complaints and appeals policy
5. Student handbook
6. And other critical information

Should you have any specific information, please do not hesitate to contact us via email at admin@intech.edu.au

Recognition of Prior Learning:

Provides students an opportunity to have their current skills and competencies recognised. These skills and competencies may relate to units you are about to commence and as a result can exempt you from studying these units. However, there is a cost related to obtaining Recognition of Prior Learning. The process requires students to gather evidence confirming their competency. A content specialist will advise you in this task.

Enquire if you think you qualify.

If the education provider grants an overseas student RPL, it may impact on student visa conditions through a shortening of the student's course

Program Recognition

Your qualifications are recognised nationally under the Australian Qualifications Framework (AQF).

Check the www.ntis.gov.au and search for college code 30100

Topics covered

Engines Repair and Diagnosis Repair
Engine Performance Maintenance and services procedures First Aid & Workplace safety
Tools and equipment
Repair Drive lines and Transmission
Service batteries and Starting
Repair and service mechanical parts
Repair and service brakes, suspensions, tyres
Repair Electrical Components
Repair Fuel and Fuel Injectors
Repair Cooling Systems
Repair Exhaust Systems

Tuition fees; \$5,900, Inclusive of:

Course resources such as materials, textbooks, learning guides, logbooks, initial stationery;

Duration:

32 weeks

Enrollment Process:

Enquire at InTech for a general student handbook, course profile, entry conditions, classroom place availability and fee arrangement at:

28 Russell Street, South Brisbane and
44 Hope Street, South Brisbane,
Queensland, Australia

Other Policies that you should be aware of:

- Refund Policy,
- Grievance and Appeals,
- Critical Incidents, Attendance and course
- Course Progress Policy
- Special Requirements if you are under 18
- Transfer between Registered Providers
- Completion of your course on time
- Deferring, suspending or cancelling enrolment
- Course Cross credit
- Formalization of enrolment
- Attendance Policy
- Complaints and Appeals

Documents you require for enrolment:

1. Passport
2. Valid Study Visa
3. School Records – last study
4. English Level of attainment
5. Fill in an InTech Enrolment form
6. Get an Offer
7. Accept the Offer
8. Pay enrolment fees
9. Get a COE
10. Update DIAC with new COE

Units of Competency

AURT466208A

Carry out Diagnosis of Complex System Faults

AURC472082A

Plan and manage compliance with environmental regulations in a workplace or business

AURT401145A

Overhaul engines and associated engine components

AURT403145A

Overhaul petrol fuel system components

AURT406145A

Overhaul clutch assemblies

AURT406645A

Overhaul transmissions (manual)

AURT407145A

Overhaul transmissions (automatic)

AURT410145AA

Overhaul braking system components (light)

AURT412645A

Overhaul final drive assemblies

AURT415145A

Overhaul steering system components
